

To download the files from our iDisk account please follow these simple steps.

For PC users:

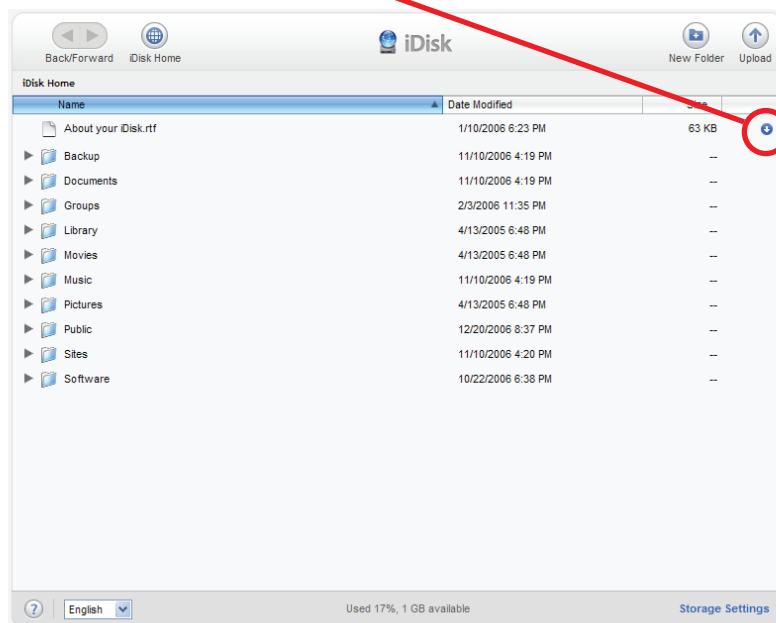

- Open Microsoft Internet Explorer
- Manually type the following address into the address field:
<http://idisk.mac.com/parcsigns>

It will ask for details, please enter:

Username: parcsigns
Password: argyle

You are then presented with a web page with named folders. Double click on the folder public and you will see the files ready for you to download to your hard disk.

- To download files, click on the arrow on the right of the file name.

- Once you have finished simply close the browser window.
