

For customers supplying us with digital artwork please note the following specifications

- Email us at creations@parcsigns.co.uk up to 15MB
- All artwork to be supplied formatted for use on PC or Mac

Artwork can be sent on the following media

- CDR or DVD
- USB Flash drive (memory stick)
- Mac Idisk (Please email us for instructions)

Please ensure you include a printed hard copy with your artwork

Are you are supplying artwork files for any of the following types of jobs?

Cut vinyl lettering? This generally applies to vehicle livery and signage

Contour cut decals? These are irregular shaped cutouts for stickers etc.

Spot colour edge printing? For example health and safety style labels or stickers.

Engraving / routing? Generally used for cut acrylic letters or plaques and tags

If you are, you will need to create vector based artwork and save them as one of the following file types:

- Adobe PDF
- Adobe Indesign up to version CS2
- Adobe Illustrator (.ai) up to version CS2
- Encapsulated Postscript (.eps)
- Corel draw (.cdr) up to version 10
- Autocad drawings (.dxf/.dwg) please contact before sending in this format

If text and fonts are involved where possible convert them to outline / curves or supply with fonts to install.

If you have any questions please contact a member of our design team.
